Grain and Provisions.

CHICAGO. July 29—Damage reports from the spring wheat country were perhaps the most influential factor in causing a strong wheat market here today. At the close September wheat was up 11%014c, evern and oats each gained 4c, and provisions 75c to 17c.

Sentiment methe wheat pit was decidedly bullish at the start as the result of an attempt on the part of the shorts to cover July sales. The cause of the urgent demand was a report that a large quantity of wheat in private elevators which shorts had expected to deliver on July contracts had been rejected by the inspection department. This necessitated bidding for the grain in the pit. There was little for sales and in consequence the price was forced up over 15c above yesterfales s closing quotation. The action of the July option gave support to the distant deliveries, September opening at a gain of 4c to 15c at 195c to 195c. Toward the end of the first hour the market exceed somewhat on profit-taking. September being down to 1903050c.

The reaction, however, was shortlived.

profit-taking. September being down to sogsage.

The reaction, however, was shortlived. Alarm over the European political situation, allayed early in the day by a rise in English consols, was stirred on afresh by a subsequent sharp decline in those securities. About the same time damage reports from the Southwest and Northwest began coming in, causing additional anxiety among shorts. A report that the Northwest country mills can take all the new wheat offered from now on caused renewed buying. An official forecast of thunderstorms increased the buillish tone, as did also numerons advices from Kansas City, claiming a decrease in receipts at that point. On the builge that followed September advanced to 20% but part of the gain was again lost on realiging. The market, however, closed strong with September at 30,4150%. Strength of wheat was the main factor affecting the corn market, although there was some purchasing for long account late in the session and the possibility of a European war. The market closed at the highest point of the day. September

In the session and the possibility of a European war. The market closed at the
highest point of the day. September
opened unchanged to be higher at 49%c to
25%c, sold between 49%c and 49%c/19%c,
and closed at 49%c.

The feature in trading in costs was an
advance of 1%c in the price of the July
option. September opened unchanged to a
shade lower at 35c to 336%3%c, sold between 25%3%c and closed at
334%3%c.
Provisions took on fair strength owing
to moderate purchases by brokers for the
account of prominent packers. Trading,
however, was still very quiet 1 At the
close September pork and ribs were each
up 12%35%c at \$7.05.
Estimated receipts for tomorrow—
Wheat 100 cars, corn, 185, oats, 107, hogs,
20% head.

ACTIVITY IN WEST.

Fall Trade, However, Is Slow to Assume Form.

NEW YORK, July 28.-Bradstreet's tomorrow will say: 'More activity is noted at a few Eastern centers, but if all trade is at a few Eastern centers, buttfall trade is slow to assume form pending assurance as to crop results and a settlement of exist-ing industrial disturbances. Crop condi-tions are on the whole favorable, though irregularity in sections prevents generali-zation. Fall loquiry and shipments of goods are livening up at the West and are expected to become active early in Au-

gust. The movement of winter wheat to market, somewhat delayed this year, has begun in carnest. Colnoident improvement in collections is shown at some centers and the demand for money from the country has increased. The movement of currency to move the crops has assumed good proportions this week. Advices from some Western markets point to more doing in fall dry goods, shows and clothing. Good crop prospects favorably influence Southern trade, which is expected to prove excellent later on. "Trade at Eastern markets is still rather quiet. Wool is quiet, though still firm, with medium grades relatively in best demand.

with medium grades relatively in best demand.

"On the Pacific coast San Francisco reports a light trade at present but a good fall business is expected. Export business is affected by war complications. The salmon pack will be disappointingly small on the entire Pacific coast.

"Unrest in industry is a feature of importance. The great strike has reopened at leading Western packing centers and there is danger of sympathetic strikes ombrolling railroad employees. In addition to the 26,000 meat trade strikers, production of print cloths at Eall River boseome to an almost complete stop, owing to the strike of 25,000 mill hands against a reduction. In addition to these the an intracite situation and the overstocking of the markets for eval renders perious disputes between operators and miners probable. A general shut-down of all mines is expected to decur next week, involving the idleness of 80,000 men. Other lines of industry are rather quiet, iron notably so pending a cleater view of future requirements.

"Business failures in the United States"

industry are rather quiet, if on notably so, pending a clearer view of future requirements.

Business fallures in the United States for the week ending July 28 humber 174, against 190 last week 199 in the life week in 1903, 188 in 1902, 100 in 1901 and 170 in 1906 in Canada failures for the week number 17, as against 19 last week and 17 in this week a year ago.

"Wheat including flour, exports for the week ending July 28, aggregate 1.612,250 bushels, against 1,261,501 last week, 2,191,42 this week last year, 4,288,334 in 1902 and 5,482,391 in 1901. From July 1 to date the exports aggregate 5,186,174 bushels, against 12,065,624 last year, 16,349,340 in 1902 and 22,405,346 to 1901.

"Corn exports for the week aggregated 41,544 bushels, against 1,266,66 last week, \$25,829 a year ago, 28,405 in 1902 and 52,694 in 1904. From July 1 to date the exports of corn aggregate 2,310,544 bushels against 5,257,665 in 1903, 423,726 in 1902 and 6,233,699 in 1901.

DUN'S OPINION.

Confidence Appears to Be Returning, Despite Many Unemployed.

NEW YORK, July 29.-Dun's Review of Trade tomorrow will say: "Confidence Trade tomorrow will say: Confidence appears to be returning, despite a large addition to the army of unemployed. Labor disturbances are the most unfavorable factors in the industrial and commercial situation at the present fifte, curtailing the output of a few muchaneeded products and reducing the demand for all commodities. Aside from this adverse influence, the situation has improved, although pregress is slow and frequently interrupted. Another week has put wheat and cotton beyond danger and brought other crops nearer maturity.

Dealers are providing for the future a little more frecity, and in several important branches of industry/orders come forward in greater bulk. Owing to special conditions, the leading brenches of manufacture do not make uniform progress, complications as to supplies of raw material making the current situation particularly puzzling at the textile mills and shoe shops.

"Earnings of the raifways thus far reported for July are only 2.1 per cent less than last year.

"While the ione of the packer hide market is naturally very strong on necount of the packing-house strike, there is no activity, tanners tailing to receive any advantage in making purchases when deliveries are so uncertain. Foreign hides arrive slowly and are in brisk request.

"Eallures this week numbered 29 in the United States, against 190 last year, and 18 in Canada, compared with 19 a year ago." oppears to be returning, despite a large

OPTIMISM GROWING.

Confidence in Good Fall and Winter

received this week from special agents of the International Mercantile Agency country are, in the main, satisfactory. The spirit of optimism is growing and confidence in a good fall and winter business increases from week to week. Current activity in the different industrial lines is not great, but it than it was a year ago, with the very wholesome influence of a faith in better things. A decided reaction has oc-curred in the movement of stocks, but this is not due to any material change in business prospects.

There has been good growing weather

for the crops which are approaching harvest under continued improved con-ditions. In the spring wheat sections of the Northwest some rust has been discovered, which will reduce the yield. Harvesting is in progress in nearly all of the leading winter States, and the results are better than farmers thought they would be two weeks ago. It is beginning to be believed, though, that the total yield will leave a small exportable surplus and that the price of wheat surplus and that the price of wheat and flour during the next twelve months will be high. The speculative months are now at the top price for this move-ment, having been helped by a war scare which produced an opposite ef-fect on stocks. The returns on wheat in the southwest have stimulated bus-ness in that part of the country. iness in that part of the country. lections in the St. Louis district have far exceeded those of last year. Fall orders being received are beyond expectations. Boots and shoes have been pectations. Boots and shoes have been in especially good demand, though clothing is slow. Dallas reports bright trade, prospects.

The first symptom of discouragement that has been shown at Kansas City is apparent this week in reports of a slack condition of trade in most lines. Chi-cago retailers are said to be more pessi-mistle than they ought to be, in view of actual events. The packing-house strike casts a shadow over trade there, even with advance orders for clothing, men's furnishings, shows and men's furnishings, shoes and wearing apparel quite satisfactory. Indianapolis indicates some improvement in dry goods and shoes, though with hardware behind last year. The most gratifying trade statements of all are those from Pittsburg. This is due to the improve-ment that has come about in the iron and steel trade. The tone in this basic trade is certainly much better than it has been in a year, and a sharp revival in it is not improbable after election.

Bank Clearings.

NEW YORK July 23.—The following ta-ble, compiled by Bradstreet, shows the bank clearings at the principal cities for the week ended July 25, with the percent-age of increase and decrease as compared with the corresponding week last year. Inc. Dec

Blame

No One But Yourself if You Don't Get Well When Sick.

All we can do is give advice. Of course that's easy.

But our advice is really worth a little more to you than most people's, for we offer to give you the first bottle of our medicine free, if it fails to help you.

We could not afford to do this unless our medicine was good. Such an offer, on the wrong kind of medicine, would put a merchant prince in the poor house. Dr. Miles' Nervine, however, as years of experience have proved, is a medicine that cures the sick.

Those whom it cannot benefit-less than one in ten thousand—we prefer to refund their money.

All we ask of you is to try Dr. Miles' Restorative Nesvino for your complaint. If you suffer from sheeplessness, nervous exhaustion, dizziness, headache, muscular twitchings, melancholy, loss of billions troubles, epilepsy, St. Vitus' Dance, etc., we will guarantee to benefit you or refund your money.

You are the doctor. "My son Bert, when in his 17th year, became subject to attacks of epilepsy, so secious that we were compelled to take him out of school. After several physicians had falled to relieve him, we gave Dr. Miles' Nervine a trial. Ten months treatment with Nervine and Liver Pills restored our boy to perfect health.—MR. JOHN S. WILSON, Deputy Co. Clerk, Dallas Co., Mo.

FREE Write us and we will mail to you a Free Trial Package of Dr. Miles' Anti-Pain Pills, the New, Scientific Remedy for Pain. Also Symptom Blank for our Specialist to diagnose your case and tell you what is wrong and how to right it. Absolutely Free Address: DR. MILES MEDICAL, CO., LABORATORIES, ELKHART, IND.
